### Data Security and Privacy with the Privacy Professor

New shows the first Saturday of each month at 8 AM Pacific

**November 2nd 2019: Professional ethics and technology in the cyber age**

Executives, tech, data & cyber security, and privacy professionals face situations testing their ethics every day. Just a few issues include:

- Profit maximization at any cost, including privacy and data security
- Creating and selling products and services that monetize personal data at the cost of privacy, security and safety of the associated individuals
- Intentionally refusing to acknowledge known security and privacy problems to not damage sales and profits
- Deliberately releasing technologies that executives know do not work as expected or as advertised

Tune in to hear Rebecca
