

Turning Hard Times into Good Times

with Jay Taylor

Turning Hard Times into Good Times
Tuesday at 12 Noon Pacific
October 22nd 2019: Big Profits from 'Armageddon'

Richard Maybury and Michael Oliver return as guests. Addison Quale visits for the first time. Richard will tell us how governments use propaganda to cause fear in the hearts of its citizens in order to gain control over them. If one understands how that game is played and not swayed by it, substantial profits can be made by investing accordingly. Richard will explain how to shape your portfolio to thrive while many tremble in fear. At a time when U.S. dollar savings pay virtually zero interest, the old excuse for not owning gold is gone. Even better, Addison will explain how you can now earn i

Featured Guests

Richard J. Maybury

Richard J. Maybury is the publisher of U.S. World Early Warning Report for Investors. He has written several entrylevel, common sense books on United States economics, law, and history. His writing style is mostly in an epistolary form, usually as an uncle writing to his nephew, answering questions. Maybury had taught economics in high school. Failing to find a book with a clear explanation of economics, he wrote one himself. Some of his books include Uncle Eric Talks About Personal, Career Financial Security a book that is basically the foundation for his other books about the model perspective Higher Law, Whatever Happened to Penny Candy a book that explains the history of the United Sta

J. Michael Oliver

J. Michael Oliver entered the financial services industry in 1975 on the Futures side, joining E.F. Huttons International Commodity Division, NYC. He studied under David Johnson, head of Huttons Commodity Division and Chairman of the COMEX. In the 1980s Oliver began to develop his own momentumbased method of technical analysis. In 1987 Oliver, along with his futures client accounts Oliver had trading POA technically anticipated and captured the Crash. Oliver began to realize that his emergent momentumstructuralbased tools should be further developed into a full analytic methodology. In 1992 he was asked by the Financial VP and head of Wachovia Banks Trust Department to provide soft dollar res
