April 6th 2011: Lost Star of Myth and Time**

Walter Cruttenden will discuss ideas proposed in his book, "Lost Star of Myth and Time", that provides an alternative view of history based on the solar systems motion through space. He believes that the myth and folklore depicting a repeating cycle of Golden ages and Dark Ages may have a basis in fact, due to the alternating stellar forces that effect Earth as our solar system moves in a 24,000 year binary (dual star) orbit. The discussion will include his interpretation of the precession of the equinox as well as the possibility that we are living in a binary star system with cyclical rise a
