September 5th 2012: "The Great Year" with
Walter Cruttenden**

Walter returns to the show to expand on his previous discussion about the motion of the Solar System through the different ages of consciousness, collectively called The Great Year. He will discuss the work of a number of presenters at this year's CPAK Conference and help us piece together our return into a Golden Age. He will bring forward new evidence to support his belief that our solar system is actually a Binary System including our Sun and the Star Sirius and hence why Sirius has been so significant to ancient civilizations. www.binaryresearchinstitute.org/
