Wednesday at 7 AM Pacific  
**October 17th 2012: Thwarting threats to  
Financial Institutions**

Over the past decade, financial institutions have been busy securing the perimeters of their networks from attacks. How successful have those efforts been? Have the perimeters finally been completely secured? what about threats from within?

#### Featured Guests

##### Michael Versace

Michael Versace is a Research Director at IDC Financial Insights, focusing on the Global Risk end-user and technology marketplace. The global risk advisory service covers retail banking, cash and treasury management, payment services, insurance, core corporate banking technologies, and capital markets. This service helps financial institutions make mission-critical decisions on their investments in a variety of risk technologies and advises providers of these technologies on strategies for success in the market.
