**January 22nd 2014: Embodying the Feminine, the key to conscious social change**

Sexual equality does not mean sexual sameness, and women's liberation is more than an issue of job equality and equal pay. In the last 100 years women have been freed to think, act, work and even make love like men and take their place in a man's world. But that is not the liberation of the feminine spirit. Learn how the subtle marginalization of feminine values keeps humanity in a limited state consciousness and society in an unbalanced, unhealthy state - and the steps both women and men can take to correct the situation. Cate Montana is the author of Unearthing Venus; My Search for the Woman
