December 26th 2014: Spotlighting the Mighty Gem of Light

And still, after all this time, the Sun has never said to the Earth, "You owe me." Look what happens with love like that. It lights up the sky. Rumi Each day dawns with light filling the world. Shadows ebb as the light becomes brighter and brighter. There are no decisions made in this daily event; it is just how it happens. We are so used to the sun shining on the earth that we take its light for granted. Focusing light can create a laser for healing, a spotlight on stage, or soft light for a reading nook. Put through a prism, light creates an explosion of rainbow color. We wouldn't make it
